Foundational Learning is the Bedrock of India's Human Capital: Dr. Sunita Gandhi

India's focus on Foundational Literacy and Numeracy gives me hope, but we must also acknowledge that many children are still sitting in classrooms without truly understanding what is being taught.

The banner for SICA'26 features a teal background with white and green text. At the top left is the 'The CSR Universe' logo, and at the top right is the 'M3M FOUNDATION' logo. The central text reads 'SICA'26' in large white and green letters, followed by 'TheCSRUniverse Social Impact Conference & Awards 2026'. Below this, a green bar indicates the date 'September 25, 2026' and the location 'New Delhi'. A yellow button says 'Register To Participate', and a red banner below it states 'Nomination Deadline: July 31, 2026'. At the bottom, five statistics are listed: '60+ Corporates', '250+ Delegates', '100+ NGOs', '25+ Partners', and '20+ Exhibitors'.

Category	Count
Corporates	60+
Delegates	250+
NGOs	100+
Partners	25+
Exhibitors	20+

TheCSRUniverse is proud to announce the launch of the **6th edition of the Social Impact Conference & Awards (SICA'26)**, organized in partnership with our **Lead Partner, M3M Foundation**. As one of India's leading platforms for advancing the social impact ecosystem, SICA'26 will bring together influential leaders from the corporate, development, government, philanthropic, and social sectors to exchange ideas, explore emerging trends, and foster collaborations that drive meaningful and sustainable change.

Through insightful discussions, thought leadership sessions, and prestigious awards, SICA'26 will spotlight innovative CSR, ESG, and social development initiatives while recognising organisations and individuals creating measurable impact across communities. Join us as we celebrate excellence, inspire action, and strengthen partnerships that contribute to a more inclusive, resilient, and sustainable future.

Mr. Piyush Sohani, Chief Growth Officer and India Managing Director, Sistema.bio

Sistema.bio on Unlocking Methane Mitigation, Rural Prosperity and India's Climate Future Through Biogas Solutions

"When global climate accounting frameworks were originally designed, greenhouse gases were evaluated over a 100-year horizon, a reasonable starting point at the time, but one that inadvertently diluted methane's true potency."

AI's hidden water footprint: Why sustainable data infrastructure matters

India's data centres consumed an estimated 150 billion litres of water in 2025, a figure projected to more than double by 2030, underscoring where smarter infrastructure decisions, better policy, and coordinated investment can matter most. Now is India's chance to figure this out early and build digital infrastructure for the long haul.
